Auditors Report

The Auditors' Report to the members on the Accounts of the Company for the financial year ended 31st March, 2022 does not contain any qualifications, reservations or adverse remarks. However the auditor has given below mentioned observation in his report:

**Our opinion is not modified in respect of this matter
Emphasis of Matter**

- a) We draw attention to Note No 6 of the Audit Report wherein the Company has accounted for the Goods and Service Tax (GST) Liability amounting to Rs. 42,09,537/- for the years upto 31st March 2022 without obtaining GST Registration. Consequently it has not discharged the said liability. The resultant impact of the same along with interest, late fees, penalty (if any), on the statement of profit and loss, retained earnings and the related disclosures forming part of their financial statement could not be ascertained.
- b) We draw your attention to note no 8 wherein advance amounting to Rs. 64,50,455/- has been given to a party for which no confirmation has been obtained. In the absence of confirmation we are unable to verify the recoverability of the same. However the management is confident about its realisability. Further in the absence of appropriate audit evidence on its recoverability we are unable to comment on carrying value at the year end and its resultant impact on the statement of profit and loss, retained earnings and the

related disclosures forming part of their financial statement.

- c) Also we draw attention to the fact that the company has defaulted in complying with the provisions of section 138(1) of the Companies Act, 2013 which require the Company to appoint an Internal Auditor.

Our opinion is not modified in respect of this matter.

Independent Auditor' Report on Quarterly and Year to date Standalone Audited Financial Results as on 31st March, 2022 of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To
The Board of Directors,
Corporate Courier and Cargo Limited
Mumbai

Report on the audit of the Standalone Financial Results

Qualified Opinion

We have audited the accompanying standalone quarterly financial results of Corporate Courier and Cargo Limited (the Company) for the quarter ended 31st March, 2022 and the year to date results for the period from 01st April 2021 to 31st March 2022, attached herewith, being submitted by the company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, except the possible effects of the matters described in "Basis for Qualified Opinion" para below these standalone financial results:

- i. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations in this regard; and
- ii. give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable accounting standards and other accounting principles generally accepted in India of the net profit and other comprehensive income and other financial information for the quarter ended 31st March, 2022 as well as the year to date results for the period from 01st April, 2021 to 31st March, 2022.

Basis for Qualified Opinion

- i. We draw your attention to note no 6 wherein the company has accounted for Goods and service tax (GST) liability amounting to Rs. 42,09,537/- for the years upto 31st March 2022 without obtaining GST registration. Consequently it has not discharged the said liability. The resultant impact of the same along with interest, late fees, penalty (if any), on the statement of profit and loss, retained earnings and the

related disclosures forming part of their financial statement could not be ascertained.

- ii. We draw your attention to note no 8 wherein advance amounting to Rs. 64,50,455/- has been given to a party for which no confirmation has been obtained. In the absence of confirmation we are unable to verify the recoverability of the same. However the management is confident about its realisability. Further in the absence of appropriate audit evidence on its recoverability we are unable to comment on carrying value at the year end and its resultant impact on the statement of profit and loss, retained earnings and the related disclosures forming part of their financial statement.
- iii. Also we draw attention to the fact that the company has defaulted in complying with the provisions of section 138(1) of the Companies Act, 2013 which require the Company to appoint an Internal Auditor

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial results under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note No 4 of the statement regarding accumulated loss of the Company is Rs. 6,60,29,131/- (Previous Year Rs. 6,55,15,485). The Company's current assets exceeds its current liabilities as at 31st March, 2022 but only without considering the liability as discussed in 'Basis of Qualified Opinion' section above. These conditions along with other matters set forth in such note indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as going concern. However in view of the continued availability of financial support from directors as described in the aforesaid note, the management is of the view that the going concern basis of accounting is appropriate.

Our opinion is not modified in respect of this matter

Emphasis of Matter

- a) We draw attention to Note No 7 of the statement where in the Company has not paid Tax deduction at source (TDS) amounting to Rs. 4,18,257/-, further interest, penalty liability if any shall be accounted for as an when paid, amount not ascertained.
- b) We draw attention to Note No 9 of the statement wherein during the year two independent directors has been resigned with effect from 30th June, 2021 from the Company.
- c) We draw your attention to Note No 10 to the annual financial results, which describes the fact that the pandemic Covid-19 would cause various economic and social disruption to the Company impacting trade receivables and carrying value of all other assets, consumer demand, commodity prices, personnel available for work and access to offices. The impact may be different from that estimated as at the approval of the financial results and the Company will continue to closely monitor any material changes to future economic conditions.

Our opinion is not modified in respect of this matter

Management's Responsibilities for the Standalone Financial Results

These quarterly financial results as well as the year to date standalone financial results have been prepared on the basis of the interim financial statements. The Company's Board of Directors are responsible for the preparation of these financial results that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial results, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The Statement includes the financial results for the quarter ended 31 March 2022, being the balancing figures between the audited figures in respect of the full financial year and the published unaudited year-to-date figures up to the third quarter of the current financial year, which were subject to limited review by us.

19 Categories of Financial Instruments

19.1 Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes units of mutual funds (open ended).

Level 2: The fair value of financial instruments that are not traded in an active market for example, derivative instruments is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There has been no transfers between level 1, level 2 and level 3 for the year ended 31 March 2022 and 31 March 2021.

19.2 Valuation technique used to determine fair value

The fair value of a financial instrument on initial recognition is normally the transaction price (fair value of the consideration given or received). Subsequent to initial recognition, the Company determines the fair value of financial instruments that are quoted in active markets using the quoted bid prices (financial assets held) or quoted ask prices (financial liabilities held) and using valuation techniques for other instruments. Valuation techniques include discounted cash flow method using the closing curves available on the market terminals as at the end of reporting period.

The Company measures financial instruments, such as investments at fair value.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The carrying amounts of trade receivables, trade payables and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair

19.3 Fair value of financial instruments not measured at fair value

Other financial assets and liabilities

With respect to bank balances and cash and cash equivalents (Refer note 5), trade receivables (Refer note 4), trade payables (Refer note 15) and other financial liabilities (Refer note 19), the carrying value approximates the fair value.

CORPORATE COURIERS AND CARGO LIMITED
NOTES FORMING PART OF ACCOUNTS FOR THE YEAR ENDED MARCH
31, 2022

1 Corporate Information

Corporate Couriers And Cargo Limited (“the Company”) is incorporated in the State of Maharashtra, India and is listed on BSE Limited. The registered office of the Company is situated at 19, Parsi Panchayat Road Andheri (East), Mumbai-400069. The Company is mainly engaged in the business of Logistic services.

The Company accumulated loss of 6,60,29,131 (2021: 6,55,15,485) as at the end of financial year March 31, 2022. The financial statements have been prepared on a going concern basis on the basis of exploring available business opportunities and continued availability of financial support from directors. In the event that there is no further developments in future business or continued financial support, the going concern basis would be invalid and provision would have to be made for any loss on realisation on of the Company's assets and further costs, which might arise. The directors are satisfied that the Company has sufficient opportunity and financial support from directors will be available as and when required.

2 Significant Accounting Policies (to the extent applicable) -

Statement of Compliance

Standalone Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Accounting Standards) Amendment Rules, 2016. The aforesaid financial statements have been approved by the Board of Directors in the meeting held on 13th June, 2022.

2.1. Basis of Preparation

These financial statements (hereinafter referred to as “financial statements”) have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (‘Act’) read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of IND AS 7 “Statement of Cash Flows”.

The Company has prepared these Financial Statements, which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss, the Statements of Cash Flows and the Statement of Changes in Equity for the year ended March 31, 2022 and a summary of significant accounting policies and other explanatory information (together hereinafter referred to as “Financial Statements” or “Financial Statements”).

The Financial Statements have been prepared on the historical cost basis except for certain financial instruments and certain employee benefit assets are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Fair value is the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of IND AS 17 and measurements that have some similarities to fair value but are not fair value, such as net realizable value in IND AS 2 or value in use in IND AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized within the fair value hierarchy into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest decimal when otherwise stated.

Adoption of new and amended standards and interpretations

IND AS 115 supersedes IND AS 11 Construction Contracts, IND AS 18 Revenue and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. IND AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflect the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer

IND AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Company adopted IND AS 115 using the modified retrospective method of adoption with the date of initial application of 1 April 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Company elected to apply the standard to all contracts as at 1 April 2018 and there is no material effect or adjustments that arises from the adoption of IND AS 115. Consequently, no comparative for the 2018 financial year have been impacted or restated.

2.2. Current / non-current classification

Assets and liabilities have been classified into current and non-current based on their respective operating cycle.

2.3. 2.3 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the amount is received. Revenue is measured at the fair value of the consideration received or receivable taking into account contractually defined terms and excluding taxes collected on behalf of government.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

The amount of revenue recognised is based on the transaction price, which comprises the contractual price and adjusted for expected returns.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is presented net of value added tax, rebates, discounts and sales returns.

Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

2.4. Cash and Cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, demand deposit and short-term deposits, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management process.

2.5. Leases

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Short-term leases and leases of low-value assets The Company applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value (i.e. below ` 5,00,000). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.6. Income Taxes

2.6.1 Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are in force at the reporting date.

Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to

the underlying transaction either in OCI or directly in equity.

The Company offsets current tax assets and current tax liabilities where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realize the assets and settle the liability simultaneously.

2.6.2 Deferred Tax

Deferred income tax is recognised using the balance sheet approach

Deferred tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred tax arises from the initial recognition of an asset or liability that effects neither accounting nor taxable profit or loss at the time of transition.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Minimum Alternate Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and reduces to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the MAT to be utilised.

2.7. Provisions and contingent liabilities

(i) A provision is recognized when

The Company has a present obligation (legal or constructive) as a result of a past event;

It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and

A reliable estimate can be made of the amount of the obligation.

(ii) A disclosure for a contingent liability is made when there is a possible obligation

or a present obligation that may, but probably may not, require an outflow of resources. A contingent liability also arises in extreme cases where there is a probable liability that cannot be recognised because it cannot be measured reliably.

- (iii) Where there is a possible obligation or a present obligation such that the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.8. Earning per share

Basic earnings per share is calculated by dividing the net profit / (loss) for the year attributable to equity shareholders by weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit / (loss) for the year attributable to equity shareholders and the weighted average numbers of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.9. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

Financial Assets

Initial Measurement

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

Subsequent measurement

Financial Assets

Financial assets are classified into the specified categories i.e. amortised cost, fair value through profit or loss (FVTPL) and fair value through other comprehensive income (FVTOCI). The classification depends on the Company's business model for managing the financial assets and the contractual terms of cash flows.

Equity investments

The Company subsequently measures all equity instruments at fair value. Where the Company's management has elected to present fair value gains and losses on equity

instruments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to statement of profit and loss. Dividends from such investments are recognised in statement of profit and loss as other income when the company's right to receive payment is established.

Derecognition of financial assets

A financial asset is derecognised only when

(a) The Company has transferred the rights to receive cash flows from the asset or the rights have expired or

(b) The Company retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement. Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Company makes judgmental assessment for financial asset in default when contractual payments are past due.

The Company uses a provision matrix to calculate Expected Credit Losses (ECLs) for trade and other receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

The Company considers a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial liabilities and equity instruments

Debt or equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax

Financial Liabilities

Subsequent measurement

Financial liabilities measured at amortised cost:

Financial liability are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the statement of profit and loss.

Financial liabilities measured at fair value through profit or loss (FVTPL): Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Derivatives, including separated embedded derivatives are classified as held for trading unless they are designated as effective hedging instruments. Financial liabilities at fair value through profit or loss are carried in the financial statements at fair value with changes in fair value recognized in other income or finance costs in the statement of profit and loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date.

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis and available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

3. Critical accounting judgement and estimates

The preparation of financial statements requires management to exercise judgment in applying the Company's accounting policies. It also requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures including disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis, with revisions recognised in the period in which the estimates are revised and in any future periods affected

a. Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that have a low probability of crystallising or are very difficult to quantify reliably, are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. There can be no assurance regarding the final outcome of these legal proceedings.

b. Impairment testing

i. Judgment is also required in evaluating the likelihood of collection of customer debt after revenue has been recognised. This evaluation requires estimates to be made, including the level of provision to be made for amounts with uncertain recovery profiles. Provisions are based on historical trends in the percentage of debts which are not recovered, or on more detailed reviews of individually significant balances.

ii. Determining whether the carrying amount of these assets has any indication of impairment also requires judgment. If an indication of impairment is identified, further judgment is required to assess whether the carrying amount can be supported by the net present value of future cash flows forecast to be derived from

the asset. This forecast involves cash flow projections and selecting the appropriate discount rate.

c. Tax

i The Company's tax charge is the sum of the total current and deferred tax charges. The calculation of the Company's total tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process.

ii Accruals for tax contingencies require management to make judgments and estimates in relation to tax audit issues and exposures.

iii The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. Where the temporary differences are related to losses, the availability of the losses to offset against forecast taxable profits is also considered. Recognition therefore involves judgment regarding the future financial performance of the particular legal entity or tax Company in which the deferred tax asset has been recognized.

d. Fair value measurement

The Company measures financial instruments at fair value on initial recognition and uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

e. Classification of assets and liabilities into current and non-current

The management classifies the assets and liabilities into current and non-current categories based on the operating cycle of the respective business / projects

4. Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the ‘10 percent’ test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

20.

Cash on hand as at March 31, 2022, was physically verified by the Management and a certificate in respect of such verification has been duly furnished to the Auditors.

21. The Outbreak of coronavirus (COVID-19) pandemic and resulting lockdown enforced from March 23, 2020 have effected the Company's regular operations. The Company has made an assessment of its liability position for the next year and has assessed the carrying value of receivables and other current assets in developing the assumptions relating to the possible future impact on the operations, the Company as on the date of approval of these financial results has used internal and external information which are relevant in determining the expected future performance of the Company. Based on the evaluation of liquidity position and recoverability of assets and other such estimates, the Company expects the carrying amount of Assets will be recovered. The impact of Covid-19 on the Company's financial results may differ from that estimated as on the date of approval of these financial results.
22. a) During the year relating to amounts written off during the year, Company has written off trade receivables balance having value of Rs.22,85,000/- (2021: 12,50,000/-) as the same are very not recoverable in spite of best efforts. Necessary compliance have been made in IND AS also

31. Financial Instruments

i. Financial risk management

The Company has a Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Company's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Company's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Company.

The risk management policies aims to mitigate the following risks arising from the financial instruments:

- Credit risk; and
- Liquidity risk

a. Credit risk management:

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Company's credit risk arises principally from the trade receivables, loans, investments in debt securities, cash & cash equivalents, derivatives and financial guarantees.

Trade receivables:

Customer credit risk is managed centrally by the Company and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits defined in accordance with the assessment.

Credit risk on receivables is also mitigated by securing the same against letters of credit and guarantees of reputed nationalised and private sector banks. Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

The history of trade receivables shows a negligible allowance for bad and doubtful debts.

Ageing of trade receivables

Trade Receivables (unsecured)	As at 31st March, 2022	As at 31st March, 2021

b. Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for long term capital expenditure growth projects. The Company generates sufficient cash flow for operations, which together with the available cash and cash equivalents and short term investments provide liquidity in the short-term and long-term. The Company has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods and its non-derivative financial assets. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.
